ARTICLE 1 - ESTABLISHMENT

Henceforth is established the PhD course in EDUCATION, LANGUAGES, CULTURES - Cycle XL, with its administrative office at LUMSA University (Libera Università Maria Ss. Assunta, hereinafter, “LUMSA”).

As per Ministerial Decree No. 226 of 14 December 2021, research doctorate courses may be established only after accreditation by the Italian Ministry of Education, Universities and Research

(MIUR), with the favourable opinion of the National Agency for the Assessment of the University and Research System (ANVUR), and the fulfilment of ministerial accreditation requirements. In the event of an unfavourable opinion, the courses concerned shall be immediately suspended, and, therefore, the right to enrol successful candidates in the non-accredited courses shall expire.

Following below is an indication of the number of places available, the number of scholarships available, the duration, the responsible department, the admission procedures, and the person in charge of the procedure.

Course title: EDUCATION, LANGUAGES & CULTURES

The focus of the doctorate is that of the educational relationship as an essential element in the course of one's life. The human being needs to be completed by a relationship that opens up possibilities and unleashes potential that is present but often only in a latent way. The educational relationship not only changes in the life cycle of a person but undergoes a cultural and intercultural curvature, both in a synchronic and in a diachronic perspective. It is based on the cultural dimension of the human being both as a user of the culture to which he or she belongs, and as a producer of new culture, also through work and communication technologies.

The linguistic dimension in its multiple expressions is a constitutive and essential part of the educational relationship. It is, indeed, an integral part of an educational process that aims to enrich the person globally from a cognitive, cultural and relational point of view. For this reason, historical, linguistic-literary, cinematographic and multimedia knowledges, thanks to a common philological methodology that oversees the research, and their ability to stimulate a rich textual and communicative intelligence, are integrated into the spectrum of languages in which the educational relationship is realized.

All is then projected against a backdrop of a broader and more comprehensive education oriented towards sustainability and the ecological transition.

The doctorate, despite having a strong unitary nature, will be divided into 2 curricula:

1. PEDAGOGICAL: The pedagogical curriculum, oriented to personal education, active citizenship, and the ability to manage a constantly changing context, will investigate and reassess theoretical and epistemological knowledge relating to education in its various dimensions, specificities and differences;

2. LINGUISTIC-LITERARY: The linguistic-literary curriculum is aimed at forming a critical awareness of reality and its multicultural and multilingual stratifications, allowing for re-use of humanistic heritage in educational, training and communicative contexts.

ARTICLE 4 - EXAMINATIONS

The selection process for the doctorate will be carried out in two phases aimed at ascertaining the candidate's abilities and aptitudes for scientific research in the areas referred to in the curricula that make up the doctorate, as well as adequate knowledge of the English language.

The first selection phase consists in the evaluation of the following: a) the curriculum studiorum et vitae; b) any scientific publications; c) the research project plan.

Candidates will not be present during this first phase of evaluation of the applications.

The oral exam is scheduled on 13/09/2024.

The research project plan may be submitted in Italian or in English and must not exceed 4 (four) pages, including its title, and any short bibliography. For each research project, the Selection Board will evaluate: a) relevance to the central topics of the doctorate, in one of the curricula indicated above; and for scholarships funded under the National Recovery and Resilience Plan (PNRR) by the European Union Next GenerationEU fund, relevance to the project funded by the PNRR; b) the innovative potential for research; c) the methodology applied in the research design.

In this regard, the definitive research project may not necessarily coincide with the one presented by the candidate during the selection phase.

The second phase of the selection consists of an oral exam, aimed at: a) discussion of the presented research project; b) assessment of knowledge of the English language, and, for foreign candidates, knowledge of the Italian language, considering that a good knowledge of the Italian language is required for admission to the PhD programme; c) and possible assessment by the Selection Board of knowledge of the topics of the National Recovery and Resilience Plan (PNRR) projects referred to in Article 1, in the

The oral exam is conducted publicly.

Candidates of foreign nationality may request to sit the oral exam in English, by indicating their desire to do so in Annex 1 of this call. During the interview, the Selection Board will also ascertain the level of knowledge of the Italian language of the candidate.

The absence of a candidate on the day and time of the oral exam shall be considered as a waiver of the exam itself, whatever the cause.

ARTICLE 5 - SELECTION BOARDS

The Selection Board of the call, appointed by the Rector under guidance from the Academic Board, will be made up of three (3) effective members and three (3) alternate members chosen from among professors and full-time university researchers of LUMSA or of other Italian or foreign universities who are experts in the topics pertaining to the macro-sectors consistent with the objectives of the course, and may be supplemented by another two (2) experts, chosen from public or private research institutions or entities.

The Selection Board will evaluate each candidate out of 40 (forty) points for the first selection phase (evaluation of relevant qualifications) and 60 (sixty) points for the oral exam, of which 10 (ten) points will be reserved for the assessment of competence in the English language.

Only candidates who have achieved a score of at least 27 out of 40 points in the first selection phase will be admitted to the oral exam. Notice of the oral exam and how it will be carried out will be published on the LUMSA website at <https://lumsa.it/it/dottorati/iscrizione>.

The oral exam (interview) will be considered as passed if the candidate obtains a score of no less than 40 out of 60 points, of which at least 6 out of 10 points pertaining to the candidate's competence in the English language. Once the call procedures have been completed, the Selection Board will compile a general merit ranking based on the scores obtained by the candidates in the individual exams. Eligibility for the selection will be considered over a minimum score of 67 out of 100 points.

In cases of equal merit, the younger applicant will be selected, and, in the event of a further tie, the applicant with a Master's degree mark will be selected.

The Selection Board will make the results public through publication on the LUMSA website at

<https://lumsa.it/it/dottorati/iscrizione> (under the Rankings section). For the purposes of respecting privacy, the system used will generate a unique identification code (Application Code) which will be used to identify the candidates admitted to the selection exam(s) and in the merit rankings, as per the Guidelines for Call Applications.

By means of this notice, public notification for all legal purposes shall be understood to have been fulfilled. Therefore, no communications will be sent by e-mail and/or to the candidate's physical address.
